## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Objections***

Claim 20 is objected to because of the following informalities: in claim 20 line 3, the use of "the time" is objected to in that it has not previously been recited and therefore it is unclear what "the time" is referencing. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1,2,4,9,14 and 16, the use of "relatively longterm average" is vague and indefinite. The specification does not provide a sufficient definition for this term to adequately ascertain the metes and bounds of this limitation making the scope of the claim unclear.

For the purposes of applying art, the examiner contends that given no reference point in the claim, that a period of time of a typical breathing cycle or a delivery interval would read on this limitation.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3761

Claims 1-7,9 and 14-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Sipin-4957107.

Sipin discloses a gas delivery device having a compressor 10, a controller 26 and a pressure sensor 40. The sensor sends signals to the controller which averages the pressure over a delivery interval, compares the average to a threshold value stored in memory and acts to change the speed of the compressor to raise or lower the average pressure accordingly to meet the prescribed threshold level. An alarm is activated if the measured average is over the threshold level by a predetermined amount. See col. 4 line 47-col. 5 line 15 and col. 6 lines 30-57.

***Allowable Subject Matter***

Claims 8,10-13,22 and 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
